WELCOME TO TOPTECH SCHOOL

About TopTech School

TopTech School is an online Learning Center which provides trainings and education. Our online classes are offered globally at different time zone for different class.

TopTech School programs cover the following:

- Software Development Program
- Software Testing Program
- Graphic Designing Program
- Languages Program
- Science and Math Program
- Islamic Education Program

TopTech school was established in Seattle Washington, U.S. in 2022 and has been proudly serving students from across the globe. TopTech school offers classes online using cutting-edge technologies in which the students can join their classes with peace of mind, interact with their instructors and classmates directly face-to-face in live classes

At TopTech School, our professional trainers and instructors lead you the way which make the class trainings and instructions interesting and more practical day by day.

Our Step-by-step trainings and classes give the students the feeling of accomplishment and professionalism by the time they complete each class.

Training and class instructions at TopTech School start from very basic introduction of each class to intermediate and then to advanced level. By the end of each program students complete, they will have a feeling of confidence and accomplishment in that specific program, and they will be prepared in cracking any job interview and/or passing exam in that field.

Note. Use our color code only . Not other color allowed.

1. If the background is white the font should be black
2. If the background is dark blue the font should be white
